So happy to have contacted Marcus Dryer Repair Fort Worth on first attempt. The dryer vent cleaning service these technicians performed at our home really improved the air quality. Very professional and reasonable price. Would definitely hire them again.

Tech was very knowledgeable and answered all my questions. He made suggestions for maintenance but didn't try to hard-sell me on anything. He seemed very trustworthy which very important when dealing with Dryer vent repairs and maintenance.

Great service. Got estimates from other places as well, they all told me our dryer vent were pretty dirty/bad, seems to push us to get the it done ASAP or on the same day when they came on site to do the inspection regardless. Marcus Dryer Repair Fort Worth was the only one telling me our dryer vents were okay, not that bad after cleaning done, absolutely objective, professional and polite. Reasonable price as well! Would definitely recommend them to people who need the service!

Marcus Dryer Repair Fort Worth team did a wonderful job cleaning our dryer vents and adding dampers to help the airflow in our home. They were very friendly, professional, and punctual! They set up to make sure all of our belongings would not get dirty and cleaned/vacuumed any debris after they finished. We would definitely recommend them to anyone needing their dryer vents cleaned!

I got good Dryer Repair service. The dryer was cleaned. I also got a recommendation for future maintenance. In the age of Covid, I also appreciate that the technician used a mask, and was fairly professional all in. I would recommend them. Good to clean out the dryer vent every year or so depending on your mess

The office staff were friendly and quick at getting me scheduled. The Technicians showed up in a clean, were presentable and well mannered(all these things are important to me as a stay at home mom). They finished sooner than expected even! Would definitely recommend.
